Driggs, ID Permit Writing Team Questions

05/22/2017

1. In the narrative provided by Aqua Engineering, page 2 explains that BOD and ammonia removal take place.
 - a. No removal rate for BOD or Ammonia are listed in the Application, section A.11.b
2. Could the applicants provide a more detailed/zoomed in map to show exactly the tributary to which they are discharging? The version of the topographic map provided is unclear. In particular, we need to see the wells, springs, and surface water bodies within ¼ mile radius of the WWTP.
3. ~~Is there a fact sheet template we could use?~~
